

# Overview of Flow

# How Attendees Participate

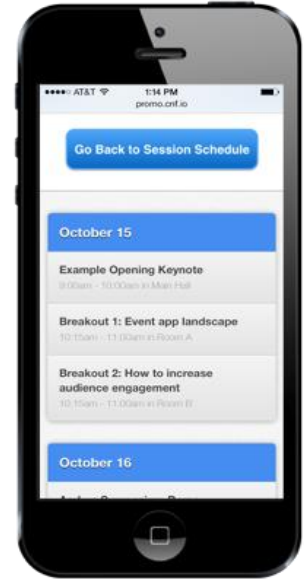

Attendees simply navigate to a URL using any device with an internet browser (smartphone, tablet, laptop, etc). There is nothing they need to download or install. Moderators will be provided with a tablet or computer to use.

1. Open up their web browser (Safari, Chrome, etc.)

2. Type in the URL for the event in the browser bar

3. Click / Tap on your session from the schedule page

# How Social Q&A Works

1. Attendees will submit questions during the session
2. Attendees will see the questions that other people in the session have asked, and can up-vote questions that they want answered
3. The most popular questions automatically rise to the top of the list

So when it's time for Q&A, you will know which questions are most important to the entire group, and can use Q&A time more efficiently!

# How to Moderate Q&A During Your Session

Play Video →

The screenshot shows a web browser window displaying the 'Elizabeth's Event' website. The page features a red header with the 'conferences i/o' logo and a navigation sidebar on the left. The main content area is titled 'Opening Keynote' and contains a 'Social Q&A' section. This section has a green header with an 'Ask' button and a sub-header 'Vote by clicking / tapping the arrow'. Below this, there is a list of seven questions, each with a vote count and three icons (heart, checkmark, and X) for interaction. A 'Need Help?' button is visible on the right side of the Q&A section.

Vote Count	Question	Heart	Checkmark	X
7	Can I vote for my own question?	✓	✓	✗
6	Can I ask the same question someone else asks?	✓	✓	✗
5	What is the URL to the website the speaker just visited?	✓	✓	✗
5	Can you approve questions before they show up for attendees?	✓	✓	✗
4	Do I ever need to refresh the page?	✓	✓	✗
4	What is the meaning of life?	✓	✓	✗
4	How much snow is on the ground where you are?	✓	✓	✗
