Position available: Associate Director or Director Clinical Translational Medicine Faculty Position

## **JOB DESCRIPTION:**

Immune Tolerance Network  
University of California San Francisco  
Associate Director or Director Clinical Translational Medicine Faculty Position

The Immune Tolerance Network (ITN) at the University of California, San Francisco, is seeking applications for a clinical research physician (MD or MD, PhD) to join the ITN Clinical Trials Group. The ITN is an organization born from the collective vision of the National Institute of Allergy and Infectious Disease (of the National Institutes of Health) and the tolerance research community. Our Mission is to advance the clinical application of immune tolerance by performing high quality clinical trials of emerging therapeutics integrated with mechanism-based research. In particular, we aim establish new tolerance therapeutics; develop a better understanding of the mechanisms of immune function and disease pathogenesis; and Identify new biomarkers of tolerance and disease

The ideal candidate must possess a medical degree (MD or MD, PhD) and have excellent qualifications in research, clinical trial methodology, education, relevant postdoctoral training, and a strong publication record. We are particularly interested in physician investigators with a background in immunology, allergy, and pulmonary diseases.

The primary responsibilities of this position are to lead and facilitate the design, conduct, and analysis of innovative clinical-mechanistic trials aimed at developing immune tolerance in allergy, and contribute to the development of clinical trials in autoimmune disease including type 1 diabetes, and organ transplantation. This position may be a shared faculty position (50 to 60%).

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applications will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status.
