The AAAAI Foundation and Phil and Barbara Lieberman and Friends Lecture: Investing Together in Our Future

The AAAAI Foundation and Phil and Barbara Lieberman and Friends Lectureship: Investing Together in Our Future will be presented by Bruce S. Bochner, MD FAAAAI in session 3101 Anaphylaxis: Novel Mechanisms and Emerging Therapeutic Interventions in Convention Center, North Building, Lower Level, Hall 6 on Sunday, February 27 at 8:20 am

Phil Lieberman, MD FAAAAI

Phil Lieberman is a Clinical Professor of Pediatrics and Internal Medicine in the Allergy/Immunology division of the University Of Tennessee College Of Medicine in Memphis TN. He is a graduate of the University Of Tennessee College Of Medicine and did his residency in Internal Medicine at this institution and completed his Allergy-Immunology Fellowship at Northwestern University Medical school. Upon completion of his fellowship he returned to the University of Tennessee to found the Allergy-Immunology Division in the Department of Medicine. He is a past president of the AAAAI.

Bruce S. Bochner, MD FAAAAI

Bruce S. Bochner, M.D. attended medical school at the University of Illinois College of Medicine in Chicago and graduated with honors. After completing Internal Medicine residency training at the same institution, he began his postdoctoral allergy and immunology training at Johns Hopkins in the Division of Allergy and Clinical Immunology of the Department of Medicine, where he joined the faculty in 1988. In 1999, he became Professor of Medicine at Johns Hopkins, and from 2003-2013 was the Director of the Division of Allergy and Clinical Immunology. As of August 2013, Dr. Bochner moved to Chicago to become the Samuel M. Feinberg Professor of Medicine in the Division of Allergy and Immunology at the Northwestern University Feinberg School of Medicine.

Dr. Bochner is a Fellow of the AAAAI and in 2019 received its annual Mentorship Award. He is a member of AOA, the American Society for Clinical Investigation and the Association of American Physicians; President of the Collegium Internationale Allergologicum; and the Immediate Past President of the International Eosinophil Society. He is co-Editor-in-Chief for the Allergy and Immunology Section of the online resource UpToDate. His research has been
steadily funded by NIH and other sources, and he is a former standing member on multiple NIH study sections. He is the author of more than 300 peer-reviewed publications, reviews, and book chapters. His primary research interests focus on the biology of human eosinophils and mast cells, and how they can be targeted for therapeutic benefit. For example, he is a co-discoverer of Siglec-8 and cofounder of Allakos, Inc. a biotechnology company that is developing anti-Siglec-8 therapies.
