Position available: Fort Collins & Greeley Offices

Job Description:

Large, multi-site, Denver/Ft. Collins/Greeley, single-specialty, allergy and asthma practice, has an opportunity for a full time physician at our Ft. Collins and Greeley Clinics. Our practice provides excellent care for adults and pediatric patients in an active, warm, patient-focused atmosphere. Our practice consists of 12 clinics and research department with 13 physicians, 16 advance practice providers and approximately 165 staff.

Responsibilities include: Provide high level specialty care for patients with upper and lower respiratory tract, cutaneous and gastrointestinal conditions, as well as hypersensitivity disorders of all kinds; perform evaluations of these conditions utilizing techniques including immediate and delayed hypersensitivity skin tests, pulmonary function testing including bronchoprovocation, rhinolaryngoscopy, radiographic imaging and others.

Benefits include: Excellent starting salary, incentive-based bonus, 4-day work week, rich insurance and benefits program, and the opportunity to work with a dedicated, experienced, professional and amiable group whose mission is to deliver excellent, personalized care.

If you are interested in joining the largest private allergy, asthma and immunology practice in the Rocky Mountain region, please send your curriculum vitae and introductory letter to:
