DISCOVERY 2027
Mechanisms of Type 2 Immunity

THURSDAY, FEBRUARY 18

9:00 to 10:25 am	Microbiome, IgA and Oral Tolerance in the Gut Immune Circuit
10:40 am to 11:55 am	From Differentiation to Tissue Identity: Shaping Th2 Responses in Type 2 Immunity
12:00 pm - 1:00 pm	**Discovery 2027: Mentoring Session**
1:15 pm - 2:30 pm	Early-Life Programming of Type 2 Immunity
2:50 pm - 4:05 pm	Metabolic Circuits Driving Allergic Inflammation
4:15 pm - 4:55 pm	**Discovery 2027 Keynote** **Sally Wenzel, MD, FAAAAI**
4:55 pm - 5:30 pm	**Discovery 2027: Abstract Blast**
5:30 pm - 7:00 pm	**Discovery Poster Session**

FRIDAY, FEBRUARY 19

8:00 am - 9:15 am	Innate Training and Epithelial Imprinting in Allergy
9:35 am - 10:50 am	How Neurons Regulate Your Immune System
11:10 am - 12:25 pm	Epithelial Stress in Allergic Inflammation
12:30 pm - 1:30 pm	**Discovery 2027: Mentoring Session**
3:05 pm - 4:20 pm	From Allergy to Oncology, Type 2 Cytokines in Tumor Immunity
4:40 pm - 5:15 pm	**Discovery 2027: Abstract Blast**
5:30 - 7:00 pm	**Discovery Poster Session**

SATURDAY, FEBRUARY 20

10:00 am - 11:15 am	[Open Access] From B Cell Development to Disease
11:30 am - 12:45 pm	[Open Access] Impact of Environment on Human Immunity
