Position available: Adult Allergist/Immunologist

Job Description:

Division of Allergy & Clinical Immunology seeks an Allergist/Immunologist on the Anschutz Medical Campus, in Aurora, CO. Candidate will work clinically within the Center for Lungs and Breathing at the University of Colorado Hospital. The Center collaborates with the University of Colorado, University of Colorado Hospital, and University of Colorado Health system.

Duties
• Collaborative patient-centered care to adult patients with allergic rhinitis, asthma, immune deficiency, and other allergic diseases
• Relationships with physicians in multiple specialties: pulmonary, otolaryngology, dermatology, and rheumatology
• Relationships with community/referring physicians
• Educate learners in Allergy/Immunology
• Excellence in clinical care, teaching, and/or clinical research

Requirements
MD, board-certified Internist, board-certified Allergy and Clinical Immunology, qualify for full-time faculty position at rank of Instructor, Assistant, or Associate Professor of Medicine. Recent allergy/immunology fellowship graduates who are board-eligible, also considered. Candidates must strongly commit to patient care and development of multidisciplinary clinical programs within the Center for Lungs and Breathing. Demonstrated skill and excellent patient care, education, and training important. Established record of outstanding research appropriate for level of training is desirable.
